☐ **Land Division:**
Creation of new land parcels that include an existing building served by a private sewage system.

Provide a survey showing the proposed land division, building location and the location of septic tank and soil absorption areas.

Option C

☐ **Residential:** Building Addition and/or remodeling that will result in an increase in number of bedrooms.

Existing number of bedrooms: _____

Proposed number of bedrooms: _____

☐ **Public/Commercial:** Building addition and/or remodeling that will result in an increase, decrease or change of building use or operation. Please check the appropriate box below: ✔

Increase in Building Usage: ☐ Same Usage: ☐

Decrease in Building Usage: ☐ Change of Use: ☐

Provide a description of the building and/or remodeling project. Attach a survey, blueprints and/or plans of the proposed improvement or development to this application.

* May require a soil test pit and profile evaluation to determine whether the existing private sewage system is in an area having a high water table or bedrock condition. Assuring proper siting and installation of private sewage systems will help prevent contamination of groundwater. **If the soil profile evaluation shows that the private sewage system is installed in unsuitable soils, it is understood that a code complying private sewage system shall be ordered installed regardless of whether a building permit is issued.**

Private sewage systems that are "failing" by discharging sewage to the ground surface or backing up into the building will be ordered replaced with a code complying private sewage system.

By signing this form, I state that I am the property owner; I have read the above statement and agree to its conditions. I also give permission for a Waukesha County representative to enter my property to determine that the proposed improvement complies with Comm. 83, Wisconsin Administrative Code and Waukesha County Sanitary Ordinance.
